ATTENTION: Mr. Gene Evans

Dear Mr. Evans:

During our telephone conversation on March 28, 1991, we discussed several items related to my March 18, 1991, inspection. These include the following:

1. Making Mr. Lloyd Cottingham an alternate emergency coordinator (EC). Mr. Cottingham's job title and job description need to be on record at the landfill office. The contingency plan should also be amended to include Mr. Cottingham's name, address and telephone number (both office and home). The revised portion of the contingency plan should then be sent to the local emergency response organizations (the Macoupin County Sheriff's Office, Brighton Fire Department and Alton Memorial Hospital).
2. Changing the "Excess Rainwater Analysis/Disposal Plan" to show the latest test method for analyzing hazardous characteristics per 35 Ill. Adm. Code 721.124. Instead of EP (Extraction Procedure) Toxicity you should have the plan reflect TCLP (Toxicity Characteristic Leaching Procedure).

If you have any questions, please feel free to call me at the above telephone number.

Sincerely,

RECEIVED

- 5 APR 1991
